EXPERIENCE

Cobble

Software engineer

Remote

September, 2021 - Present

- Sole Full-stack engineer on founding team.
- Built robust API services in Node.js and Mongo DB to integrate with paystack, credit bureaus and alternative data sources to support savings, credit report aggregation and credit data submission to respective sources.
- Built the Cobble app in react native.
- Contributed to development of CI-CD pipeline for deployments to App center, firebase, heroku and digital ocean.
- Built the getcobble.com landing page as a static export with Next.js
- Created bespoke email designs for all Cobble emails

National Youth Service Corps

Economics & Math Instructor

March, 2020 - March, 2021

- Taught fundamental linear algebra, calculus, basic combinatorics and basic tools for data analysis/visualization

BLAS INITIATIVE

Programs Manager

2018 - 2019

- Co-organized outreaches with experienced medical personnel to rural communities and schools focusing primarily on non-communicable diseases and cancers. Co-hosted radio shows discussing and analyzing common metabolic precipitants of malignancies.

FREELANCE

Debate Instructor

2017 - 2020

- Taught logic, critical thinking and foundational theories in the humanities, social sciences and core sciences at the University of Nigeria, Imo State University, Nigerian Medical Students Association and across other debating societies with several students finishing in the finals and semi-finals of prestigious tournaments.

IMSU E-LIBRARY

Intern

Jun 2017 - Aug 2017

- Participated in design and development of Information management systems for modern hybrid and fully electronic libraries using open-source software such as Koha and Greenstone.
