EXPERIENCE

Cobble

Full-stack engineer on founding team.

Remote

August, 2021 - Present

- Built robust API services in Node.js and Mongo DB and integrated payments with paystack, credit data fetching and submission to two out of three Credit Bureaus in Nigeria (First Central and CRC).
- Built the Cobble app in react native, downloaded by 1000+ users
- Contributed to development of CI-CD pipeline for deployments to App center, firebase, heroku and digital ocean.
- Built the getcobble.com landing page as a static export with Next.js

National Youth Service Corps

Economics & Math Instructor

March, 2020 - March, 2021

- Taught fundamental linear algebra, calculus, basic combinatorics and basic tools for data analysis/visualization

FREELANCE

Debate Instructor

2017 - 2020

- Taught logic, critical thinking and foundational theories in the humanities, social sciences and core sciences at the University of Nigeria, Imo State University, Nigerian Medical Students Association and across other debating societies with several students finishing in the finals and semi-finals of prestigious tournaments.

IMSU E-LIBRARY

Intern

Jun 2017 - Aug 2017

- Participated in design and development of Information management systems for modern hybrid and fully electronic libraries using open-source software such as Koha and Greenstone.
